

Reading Advantage Quarterly Observation Form

Track: ☐ Reading Advantage (Secondary) | ☐ Primary Advantage

Teacher: _____ **Date:** _____ **Article/Level:** _____

Observer: _____ **Duration:** _____ **Class Size:** _____

Step numbers match the student workbook. Both tracks run Steps 1-13. Where the two tracks name a step differently, both names are given.

DIMENSION 1: System Fidelity

Is the teacher running the program correctly? **Mark:** ✓ Yes | ✗ No | N/A

Technology & Setup

- ☐ App projected clearly, audio working
- ☐ All students have workbook + writing tool

The Big 4 (Non-Negotiables)

- ☐ **Step 3:** First reading uninterrupted (no vocabulary explanations during audio)
- ☐ **Steps 4 & 6:** Students selected their own words/sentences (not teacher-assigned)
- ☐ **Step 7:** Class answers entered in MCQ (not teacher's answers)
- ☐ **Step 12:** Workbook-first AI protocol (questions written before asking)

Program Flow

- ☐ **Step 1:** Students marked interest ratings
- ☐ **Step 2:** Vocabulary repeated chorally AND individually
- ☐ **Step 4:** All 4 word boxes used, with paragraph numbers
- ☐ **Step 5:** Students wrote a main idea for each of the 3 paragraphs (not just listened)
- ☐ **Step 6:** Both sentence boxes used, with "why I chose it" ticked
- ☐ **Step 8:** *Short Answer / Guided Response* — modeled collaboratively before individual writing
- ☐ **Steps 9-10:** Workbook page completed, not skipped for the app
- ☐ **Step 11:** *Writing Practice / Guided Writing* — included a planning phase (not straight to drafting)
- ☐ **Step 13:** Reflection completed before dismissal
- ☐ Workbook used throughout (visible student recording)

Secondary only: - ☐ **Steps 9 & 10:** Both app activities run before the workbook page

DIMENSION 2: Pedagogical Quality

Is the teacher using strong instructional practices? **Rate:** 1=Not Seen | 2=Developing | 3=Proficient | 4=Strong

Student Thinking & Metacognition

- ___ Teacher modeled thinking aloud (“I chose this word because...”)
- ___ Students made choices and could explain reasoning
- ___ Teacher accepted differing student choices in Steps 1, 4, 6 without correcting them

Evidence-Based Discussion

- ___ Think-pair-share implemented (not skipped for speed)
- ___ Students justified answers with text evidence
- ___ Class answers built collaboratively (not just accepting first response)
- ___ Multiple students contributed (not just volunteers)

Gradual Release of Responsibility

- ___ Teacher talk decreased as lesson progressed
- ___ Students worked independently in later phases
- ___ Teacher tolerated productive struggle (didn’t rescue immediately)

Responsive Teaching

- ___ Teacher circulated during student work (monitored understanding)
 - ___ Pacing adjusted to student readiness (not rushing)
-

DIMENSION 3: Classroom Technique

Is the teacher running the room well? **Rate:** 1=Not Seen | 2=Developing | 3=Proficient | 4=Strong

Tier 1 — Behavioral Foundation

- ___ **What to Do** — directions specific, concrete, sequential, observable
- ___ **Positive Framing** — names the wanted behavior, not the problem; group before individual
- ___ **Precise Praise** — praises the action not the child; no generic filler praise
- ___ **Least Invasive Intervention** — smallest correction that works; class not stopped for one student

Positive-to-corrective ratio: ☐ Below 1:1 | ☐ About 2:1 | ☐ 3:1 or better

Tier 2 — Cold Call Safety

- ___ **Cold Call** — universal, predictable, neutral tone (never used as punishment)
- ___ **No Opt Out** — student who couldn't answer ended up saying the correct answer
- ___ **Wait Time** — 3+ seconds between question and name

Tier 3 — Accuracy & Rigor

- ___ **Right Is Right** — no rounding up partial answers (*accuracy steps only*)
- ___ **Format Matters** — complete sentences expected and required
- ___ **Control the Game** — unpredictable reader changes, finger tracking (*Steps 3, 5*)

The Answer Key Test

Right Is Right and No Opt Out apply **only** where a correct answer exists: Steps 2, 3, 5 (oral reading), 7, 9, 10C. They must **not** be applied to Steps 1, 4, 6, 10D, 11, 12, 13, where the student's choice is the answer.

- ☐ Teacher applied accuracy standards **only** in the accuracy domain
- ☐ **Critical:** Teacher did **not** correct student choices in Steps 4 or 6

Which tier is this teacher currently being trained on? ☐ Tier 1 | ☐ Tier 2 | ☐ Tier 3

Observer Notes

Strongest Area (System, Pedagogy, or Technique):

One Priority for Growth:

Named technique to coach next:

Follow-Up Needed? ☐ No, on track | ☐ Yes, schedule coaching session
